

App. No. 10/707,967

REMARKS - General

This application received a notice of allowance with corrections to the drawings. The Applicant paid money for corrections to those drawing and then the Notice of Allowance was withdrawn.

To address the Examiner's new concerns, the Applicant has added new material to the claims that is not in the referenced prior art of Willers, Scalise, Siemons, Moore, or Berube-Lauziere. The current invention has a female connection that can connect to a number of different scalers depending on the needs of the dentist. It connects to a mail connection on the scaler this is not referenced in prior art.

Also applicants have rewritten all claims to define the invention more particularly and distinctly so as to overcome the technical rejections and define the invention patentably over the prior art.

Conclusion

For all of the above reasons, applicant submits that the specification and claims are now in proper form, and that the claims all define patentably over prior art. Therefore the applicant submits that this application is now in condition for allowance, which action is respectfully solicited.

Respectfully submitted,

Jeffrey M. Furr, Esq.
